EDUCATION

Bachelor of Science – Computer Graphic Technology
Purdue University, West Lafayette, IN
GPA 3.2/4.0
Expected Graduate: May 2026
Minors: Computer Information Technology

WORK EXPERIENCE

Game DLC Translator [Nov 2024] – Present
Weather Factory, Remote

- Localize Chinese DLC content with cultural accuracy and consistency.
- Collaborate with developers to maintain text quality across updates.
- Enhanced translation clarity, raising Chinese player feedback from 54% "Mixed" to 90% "Positive."

PROJECTS

White Room (ScreamJam 2023) | Role: Designer & Scriptwriter

- Developed a psychological horror game in Unreal Engine 5.
- Designed narrative pacing, atmosphere, maps, and scripts.

The Invisible (Metroidvania Month 17) | Role: Designer & Programmer

- Created a side-scrolling Unity 2D game with custom mechanics.
- Designed three stages around core gameplay concepts.

Depth First！(Ludam Dare 57) | Role: Designer & Scriptwriter

- Wrote all character dialogue and narrative content for the game.
- Designed each level to include one or more distinct solution paths.
- Collaborated with the team on puzzle flow and integration of story with gameplay.

Hell Binder (Ludam Dare 58) | Role: Designer & Scriptwriter

- Designed the core TCG verification mechanic inspired by *Papers, Please*.
- Authored all in-game text, including lore, dialogue, and UI copy.
- Balanced risk-reward systems to reinforce the theme of "collection at a price. "
